## EDITH STREET CAR TAKES FLIER AND LANDS IN DIRT

Motorman fails to properly  
Operate the Brakes and a  
Serious Accident is Narrowly  
Averted.Neglecting to apply the controllers  
and brakes at the proper time is said  
to be responsible for one of the cars  
on the Highland extension of the Albu-  
querque Traction company running  
entirely off the end of the line on  
South Edith street early last evening.  
Whether the motorman failed to do  
his duty or the accident was unavoid-  
able is not known. The car remained  
off the track all night and the wreck-  
ing crew was busy today in an at-  
tempt to put it back.The trench dug fifteen feet east of  
the carline at the intersection of  
Edith street and Central avenue, in  
order of the street committee, and in  
the hope that automobile's would stop  
speeding down the hill and lessen the  
hazard to accidents, has failed thus far  
to make much of a hit with motor-  
ists. The bump bump feature  
connected with the trench and the  
wear and tear on the cars are said  
to be the chief causes of complaint on  
the part of those who use the street.The trench dug fifteen feet east of
